

PANHANDLE CHILDCARE EXPANSION PROJECT

6 REGIONS
One Nebraska

Create more availability of childcare in Western Nebraska communities through a mentorship program—while encouraging quality care and licensing to strengthen the existing Panhandle childcare support system.

We must raise \$65,000 by October 31 to unlock a matching challenge grant — multiplying our impact and helping create more licensed childcare spots in Western Nebraska.

Why This Matters

- Childcare is economic infrastructure: without it, families struggle and businesses lose talent.
- Licensed, high-quality care = safer environments and better outcomes.
- Existing providers need support to scale and sustain.

Regional Benefits

- Workforce stability – parents can work knowing care is available.
- Stronger local economies & business growth.
- Healthier child & family development.
- Improved community retention & resilience.

Your Investment Supports

- Stipends for new and expanding childcare providers.
- Mentorship from experienced providers.
- Creating sustainable solutions for childcare.
- More childcare spots in Western Nebraska.
